

SEXUAL REPRODUCTIVE HEALTH

OVERVIEW

This course is aimed at people who wish to enter the Healthcare Industry as retail health support staff but lack the necessary background and competency. It provides the basic technical information, and customer care skills.

COURSE CONTENT:

The course is presented over 4 months, on a one day a week basis for seminars and workshops and clinical practical. This may be done at times suitable to the individual candidates at sites approved by the School following the initial 2 practical days.

Proof of competency will be in the form of case studies, assignments and practical assessments which contribute toward a portfolio of evidence, which must be completed within 8 weeks after the last workshop.

DURATION

14 Weeks

ENTRY REQUIREMENTS

Current registration as a Registered Professional Nurse with SANC
Proof of Indemnity insurance required
Acceptance on the course is subject to places being available.

WHO SHOULD ATTEND:

Registered nurses providing general and occupational health care, midwives wishing to extend their services.
