

## EMMANUEL NKRUMAH

Emmanuel Nkrumah is the Director for the Medical Devices, Cosmetics and Household Chemical substances Directorate at the Food and Drugs Authority (FDA), Ghana. He has been a regulatory officer for nineteen years with immense experience in Food, Drugs, Medical devices, Cosmetics and Household chemicals regulation.

Emmanuel holds a Bachelor's degree in Biological Sciences from the Kwame Nkrumah University of Science and Technology, Kumasi and a Master's degree in Pharmaceutical Sciences from the University of Greenwich, United Kingdom.

Emmanuel is a member of the Food and Drugs Authority's GMP inspection team (as a GMP Lead inspector) and a member of the Medicinal Product Registration Committee of the Food and Drugs Authority.

He is also a member of the Technical Committee (National committee) responsible for drafting standards for the Cosmetics and Household chemicals industry at the Ghana Standards Authority, and also the Ghana Society of Dermatology.

He oversees the secretariat for the Technical Advisory Committee for Medical devices (an independent advisory committee of experts in medical devices) in Ghana.

Emmanuel has a strong background in the regulation of medical devices, cosmetics and household chemicals in Ghana. He has been involved in the drafting of a number of policies for the regulation of the medical devices, cosmetics and household chemical industry in Ghana; and has represented Ghana on the international stage in delivering several presentations on the regulation of medical devices, cosmetics and household chemicals.
