## OUR MISSION

SAMED is committed to enabling patient access to medical technology.

## WHO WE ARE

The South African Medical Technology Industry Association (SAMEDI), founded in 1985, is a not-for-gain industry association committed to advancing patient care through medtech. With the objective of being the voice of the South African medtech and In- Vitro Diagnostics industry, we help our members to contribute towards, and participate in, an ethical and sustainable health sector. SAMEDI is committed to providing the MedTech industry with a collective, objective and credible platform for engagement with all stakeholders.

### THE VOICE OF SA MEDTECH

We encompass the full spectrum of diverse players involved in the manufacture, distributions and supply of of medical devices, medical equipment, in-vitro diagnostics and services in order to diagnose, monitor, treat and rehabilitate patients.

### ELEVATING MEDTECH

We research, assemble and share knowledge and experience to empower our members and partner with key stakeholders to raise the profile and advocate for an ethical, sustainable and transformed medtech sector.

### ADVANCING PATIENT CARE

We advocate for good regulatory practices and quality standards and support a value-based agenda that promotes access to medtech that is appropriate and relevant to South African patients.

## WHAT WE DO

We strive to safeguard, promote, and represent the common interests of members with all relevant authorities and stakeholders.

We drive compliance to ethical principles and practices in the conduct of member's businesses and affairs.

We promote access to medtech for better patient outcomes.

We shape best practice in standards, policies, and regulatory requirements applicable to the medtech industry.

We support medtech growth for healthcare sustainability.

We drive sustainable economic and social change and to facilitate a more diverse, equitable and inclusive medtech sector.
